

Vendor due diligence questionnaire

Respondent: Harbour Logistics Ltd, completed by Oliver Grant.

Incorrect answers discovered later may lead to termination of any resulting contract. Certificates should be current and cover the services being assessed. Where a control is partly in place, describe what is missing and the date it will be fixed. Answers should describe the controls in place today, not planned improvements. Subprocessors must be listed with the country in which each processes customer data. Evidence may be requested for any answer during the on-site review. The respondent confirms the answers are accurate to the best of their knowledge. The questionnaire is reviewed by procurement, security and legal before a decision is made.

Section 1

Question	Answer
Do you hold ISO 27001 certification?	Yes, certificate 2025-4471, renewed annually.
Is multi-factor authentication enforced for administrators?	For most accounts; two remain.
Are backups encrypted and tested?	Encrypted; restore tests were last run in 2024.
Where is customer data stored?	In the United Kingdom and Ireland.
Do you use subprocessors?	Yes, three, listed in appendix B.
How are access reviews performed?	Annually, by the head of IT.
Is there an incident response plan?	Yes, reviewed in January 2026.
Are staff trained in data protection?	On joining and every two years.

The questionnaire is reviewed by procurement, security and legal before a decision is made. Where a control is partly in place, describe what is missing and the date it will be fixed. Answers should describe the controls in place today, not planned improvements. Incorrect answers discovered later may lead to termination of any resulting contract.
